1. Journal:

The screenshot displays a trading journal application interface. On the left is a sidebar with navigation options: Search, Home, Inbox, Settings & members, Teamspaces (General, Trading plan, propfirm plan, Zmc Free Plan, ICT, Life plan), and Private (Calendar, Templates, Trash, Help & support). The main area shows a table of trades for July 2024, with columns for DATE, PAIR, TYPE, #, Sl pip, Rules F..., # RR, Session, # TIME E..., RISK, and LINK. The table lists 12 trades with various details like dates, currency pairs (GBPUSD, US100, EURUSD, USDCAD), trade types (LONG, SHORT), and risk levels (FULL, HALF). A summary row at the bottom indicates a total count of 12 trades, a sum of 450.2, and a 16% win rate.
